

TURNS

Many motor vehicle crashes are caused by improper turns. In general, take the following steps to ensure safe turning:

1. Plan for the turn. Do not turn suddenly.
2. Signal your turn at least 100 feet before making the turn. On a highway, signal at least 500 feet before a turn. It is best to signal before you apply your brakes to make your intentions known to other drivers.
3. Reduce your speed.
4. Check your mirrors for traffic behind you and check the blind spot on your turning side.
5. Give the right-of-way when necessary.
6. Complete the turn carefully, and make sure you turn into the proper lane.

TURNS ON RED

After coming to a complete stop at a red traffic light, you are allowed to turn *right* on red after giving the right-of-way to pedestrians and other vehicles, unless a **NO TURN ON RED** sign is posted. You may turn *left* on red following the same rules *only* if you are turning from a one-way street onto another one-way street.

U-TURNS

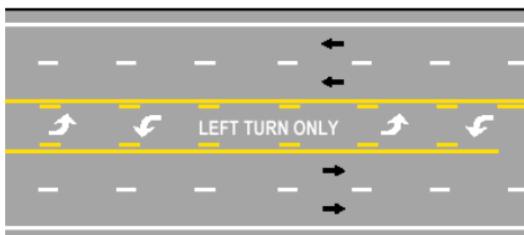

A U-turn is a tight left turn that reverses your direction. Always use added caution when reversing your direction. Unless a **NO U-TURN** sign is posted, you are allowed to make a U-turn as long as your path is clear and it is safe to do so.

- You may only make a U-turn from the lane closest to the center line.
- Make sure you have enough room to complete the turn. Don't create a hazard for oncoming vehicles.
- Do not attempt a U-turn at the crest of a hill, near a curve, or at any other point at which you or other drivers cannot see from 500 feet away.

LEFT TURNS FROM CENTER LANES

On some two-way roads, a center lane may be marked as a common left-turn lane to be used by vehicles in both directions. You may *not* travel in a center turning lane.

RIGHT-OF-WAY RULES

This section summarizes many right-of-way rules. Other, related rules, like giving the right-of-way to emergency vehicles, are presented in the appropriate sections of this chapter.

So-called “right-of-way rules” help drivers decide how to handle traffic situations that are not determined entirely by signs or signals. These rules are based on safety and courtesy and they do not give you any “rights.” **Remember, the right-of-way is something you give, not take.**

If another driver fails to follow these rules in a certain situation, you should always give the right-of-way to ensure safe operation.

PEDESTRIANS

You must always yield to pedestrians who are walking in or crossing a roadway. Also note these rules concerning pedestrians:

- If you are stopped at a traffic signal and the light turns green, you must yield to any pedestrians already in the crosswalk before proceeding.
- When turning, look for pedestrians crossing your intended path. Pedestrians have the right-of-way if using a sidewalk or crossing a driveway or an alley.
- Always yield to blind people crossing a street. If a blind person using a special cane or a guide dog is trying to cross the street, you must stop until the person has crossed safely to the other side.

INTERSECTIONS NOT CONTROLLED BY SIGNS OR SIGNALS

If you come to an uncontrolled intersection, slow down, look left and right for oncoming traffic, and proceed if the way is clear. However,

- You must yield the right-of-way to any vehicle that has entered the intersection from your right or is approaching from your right.
- Look for any traffic approaching from the left. Even though you may have the legal right-of-way, make sure that the other driver is yielding to you before you proceed.

FOUR-WAY STOP

At an intersection controlled by stop signs in all directions, you must yield the right-of-way to...

- Another vehicle that has already come to a full stop at the intersection.
- A vehicle on your immediate right that has stopped at the intersection at the same time as you.

Confusion can develop at four-way stop intersections. You should try to make eye contact with the drivers of other vehicles at the intersection to better judge their intentions and avoid accidents.

TURNING LEFT

When making *any* left turn, you must first yield the right-of-way to any:

- Oncoming vehicle.
- Vehicle already in the intersection.
- Pedestrians or bicyclists crossing your intended path of travel.

PRIVATE ROADS, DRIVEWAYS, AND UNPAVED ROADS

If you are entering a paved roadway from a private road, a driveway, or an unpaved road, you *must* stop first and give the right-of-way to pedestrians, bicyclists, or vehicles traveling along the road you are entering.

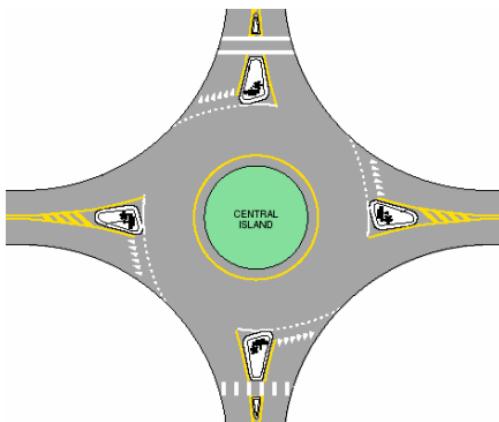

THROUGHWAYS

If you approach a designated throughway, you must yield the right-of-way to traffic on the throughway before you turn.

INTERSECTION OF SINGLE OR TWO-LANE ROAD AND MULTIPLE LANE ROAD

If you are traveling on a single or two-lane road and come to an intersection with a larger road, you must yield the right-of-way to vehicles driving on a divided highway or a roadway with three or more lanes.

ROTARIES

Because only a few states in America have traffic rotaries (traffic circles), many drivers are unfamiliar with rotaries' right-of-way rules. Be especially careful and generous when extending the right-of-way to other drivers in and near rotaries. When you approach a rotary, you must yield the right-of-way to any vehicles already in the rotary. If traffic in the rotary is heavy, stop at the edge of the rotary and wait until you can enter safely.

SCHOOL BUSES

Yellow school buses have flashing red lights and stop signs that fold out from the driver's side. School pupil transport vehicles, like vans, station wagons, or family sedans, have flashing red lights and **SCHOOL BUS** signs on their roof. School Bus Drivers use these warning signals when letting pupils on and off the vehicle.

No matter which side of the road you are traveling on, if you come upon a school bus or a school pupil transport vehicle with its lights flashing and a stop sign extended, you *must* stop. It's the law. Remain stopped until the lights stop flashing or the stop sign folds back.

Violation of this law can result in license suspension and fines of up to \$200.

Even after the warning signals have stopped, you should proceed slowly and continue to search for children that could be crossing.

The only exception to this law is if a school bus has stopped on the other side of a divided highway with a barrier between travel directions. In this case, you do not have to stop.

BUSES AND TROLLEYS

Especially in urban areas, you must take extra care when driving near public transport buses and trolleys. Buses stop frequently. Be courteous and make way for buses signaling to pull away from bus stops.

State law is very specific about driving near trolleys and their tracks:

- If you come to a trolley letting passengers on or off, you must not drive any closer than within 8 feet of the trolley passenger step.
- Look for oncoming trolleys before crossing any tracks. Do not turn in front of a trolley if one is approaching.
- Maintain a safe distance between your motorcycle and a trolley if the trolley is sharing the roadway. A trolley's path is limited to the tracks. A trolley driver cannot swerve to avoid you.

ROAD WORKERS AND REPAIR CREWS

Although road construction and maintenance sites are often well posted with warning signs, you must take extra care to ensure the safety of anyone working

on a roadway. Orange warning signs and work equipment usually mean that people are on foot nearby. Follow roadwork signs carefully, and stay alert. Look for sudden changes in road direction or condition. Be prepared to stop.

ANIMALS AND HORSE-DRAWN VEHICLES

Always give the right-of-way to any animal that someone is leading, riding, or driving. Animals are easily frightened by motor vehicles, so when you approach any animal or horse-drawn vehicle:

- Reduce your speed.
- If the animal or vehicle is coming toward you or is crossing your path, stop and allow the animal to pass.
- If the animal or vehicle is traveling in the same direction you are, allow plenty of room for passing safely, and use reasonable speed.
- Do not sound your horn or make a loud noise.
- If the animal you are passing appears frightened, you must pull your vehicle to the roadside and stop.
- Proceed only when it is safe.
- You must stop if a rider or driver signals you to do so.

In rural areas, take extra care when passing “hay rides” which are usually animal drawn and carrying several passengers.

SLOW-MOVING VEHICLES

Most farm vehicles, construction rigs, and other slow-moving vehicles have orange warning signs mounted to the rear of the vehicle. If you approach such a vehicle, reduce your speed and use the same caution you would with bicyclists and pedestrians. Allow plenty of space around the vehicle if you plan to pass.

FUNERAL PROCESSIONS

If you meet a funeral procession on a roadway, you *must* yield the right-of-way until all vehicles in the procession have passed. **It is illegal to cut through or disrupt any vehicles in a funeral procession.**

PARKING REGULATIONS

Parking regulations are generally determined by state law but are enforced by local cities and towns. If you are parking in a business or residential district, you must position your vehicle within 12 inches of the curb, except where angled parking is allowed. Parking spaces on roadway edges are often marked by white road lines. You must park your vehicle between these lines. In Massachusetts, you may *not* park your vehicle in certain places, including:

- In a zone posted with a NO PARKING, NO STANDING, or NO STOPPING sign.
- In a bus stop or taxi stand.
- In a zone and at a time posted for street cleaning.
- In a posted loading zone.
- Within 20 feet of an intersection.
- In a crosswalk, in front of a driveway, or in front of a handicap-access ramp.
- In a zone posted for HP-DV parking only (disabled person plates or placards, disabled veteran plates). Violating this parking regulation carries a heavy fine.
- Within 10 feet of a fire hydrant or fire lane.
- On a sidewalk, curb, center traffic island, or median.
- During a weather or roadway emergency.
- Facing the wrong way against traffic.
- On a state or an interstate highway, unless authorized.
- On a roadway in a rural area or outside a thickly settled district.
- In a traffic lane next to a row of parked vehicles (double parked).
- To make non-emergency repairs to your vehicle.

If you violate a parking regulation, you may receive a citation with a fine. **Unpaid** parking tickets will prevent you from renewing your license or vehicle registration.

PARKING METERS

Many public parking spaces are regulated by coin-fed meters. Meter regulations are usually in effect during posted days and hours. Also, in most areas a maximum time limit is posted.

If you exceed the limit or fail to pay the meter fee, you may be issued a parking citation.

PARKING PERMITS

Many cities and towns in the state issue special parking permits to residents. Certain residential streets have **RESIDENT PERMIT PARKING ONLY** signs. If you do not have a permit or a special visitor's placard, you may not park in these zones. Contact your local community for information on obtaining a permit.
